PSHE education gives pupils the knowledge, skills, and attributes they need to keep themselves healthy and safe and to prepare them for life and work in modern Britain. Personal, Social, Health and Economic (PSHE) education is a school subject through which pupils develop the knowledge, skills and attributes they need to manage their lives, now and in the future. These skills and attributes help pupils to stay healthy, safe and prepare them for life and work in modern Britain. PSHE education helps pupils to achieve their academic potential, and leave school equipped with skills they will need throughout later life.
